

For Every Child

Chorus

**Whoever we are
Wherever we live
Under the stars the moon and sun
These are the rights for every child
Every single one**

**Whoever we are
Wherever we live
Be it North south east or west
For every child in this wide world
We must do our very best**

**We are all the same
You and me
Should be treated equally
All the time
A safe place to sleep at night**

**Clean air food and water
For every son and daughter
The right to education
And healthy habitation**

Chorus

**The right to have a family
To love us unconditionally
To have a name, identity
To be treated well, respectfully
To have a voice that's always heard
In every language, every word
We're all the same beneath our skin
Let's throw discrimination in the bin**

Bridge

**listen, the powers that be
Listen to our voices, listen to our plea
Together, our voices unite
To light up our darkness
And make our future bright**

Chorus

**Protect us all from pain and harm
From bullets and from falling bombs
Keep us safe and keep us calm
Shield us from the war**

**We have a right to run and play
And chose the God to whom we pray
Shelter if we're forced away
That's what we're looking for**

Chorus

Composed by Davida Robinson & Jason Rose

Together with the children of Glade Primary School
